KDHE Registration to Submit Data for Promoting Interoperability (ROI)

REGISTRATION INFORMATION

Eligible providers (EP), eligible hospitals (EH), and critical access hospitals (CAH) planning to meet the Promoting Interoperability (PI) public health reporting measures (formerly known as Meaningful Use) in Kansas must register their intent to submit data to the Kansas Department of Health and Environment (KDHE). The KDHE PI program maintains only the current active engagement status for data submission and will respond with a status letter when requested. An organization is only required to re-register if it intends to submit data to an additional public health registry.

Note, EP, EH, and CAH are responsible for knowing the federal requirements regarding reporting periods for their data submission. Please refer to the [CMS PI website](#) to find more information about public health registry reporting measures, hardship exceptions, exclusions, etc. for the public health registry reporting measures.

Definition of Terms

Active Engagement – The EP, EH, or CAH is in the process of moving towards sending "production data" to KDHE or is sending production data to KDHE. There are two Active Engagement options.

Active Engagement Option 1: Preproduction and Validation – The EP, EH, or CAH has registered to submit data with KDHE. This option includes facilities in the process of onboarding, testing and validating data.

Active Engagement Option 2: Validated Data Production – The EP, EH, or CAH has completed testing and validation of the electronic submission and is electronically submitting production data to KDHE.

Production Data – Refers to data generated through clinical processes involving patient care and is used to distinguish between data and "test data". Test data may be submitted for the purposes of enrolling in and testing electronic data transfers.

GENERAL

Organization Name:

Organization NPI:

Name and Email for Promoting Interoperability Contact:

Facility Location Address (City, Street, and Zip Code):

Name of EHR Vendor:

Is this registration for multiple facilities?
(*If yes, please include additional page listing all EH, EP, and/or CAH to be registered.*)
    ❑   Yes   ❑   No

Is this facility registering as an Eligible Provider, Hospital, or Critical Access Hospital?
    ❑   Eligible Provider   ❑   Eligible Hospital   ❑   Critical Access Hospital

KDHE Registration to Submit Data for Promoting Interoperability (ROI)

REGISTRIES AND HIO

For what KDHE public health measures are you registering your intent to submit data to? (Please check all that apply)

- ❑ Kansas Statewide Immunization Information System – KSWebIZ

- ❑ Electronic Lab Reporting

- ❑ Electronic Case Reporting

- ❑ Syndromic Surveillance Reporting

- ❑ Cancer Reporting

- ❑ Other Kansas Public Health or Clinical Data registries (Please list any other registries to which this facility intends to submit data to in the space below)

Are you a member of an approved Kansas Health Information Organization?

- ❑ KONZA National Network (KONZA)

- ❑ Lewis and Clark Information Exchange (LACIE)

- ❑ Midwest Health Connection (MHC)

- ❑ None
